

# LOOKING TO SELL, BROKER OR TRADE YOUR BOAT THIS YEAR?

*Here are 5 tips for getting top dollar and keeping things hassle free!*

- 1. Gather Important Documents:** Keep these accessible for listing purposes: proof of ownership, insurance copy, warranty, and lien information.
- 2. Prioritize Appearance:** Conduct a thorough interior and exterior cleaning. Consider a professional detailer to make your boat stand out. Remove personal items and clutter. Capture pictures of your boat in water before winter storage.
- 3. Know Your Motor:** Collect crucial details like year, make, model, horsepower, engine serial numbers, and hours. These are vital for listing your boat.
- 4. Show Added Value:** Include receipts for any recent upgrades, including new electronics, equipment and services, to increase your boat's value.
- 5. Review Storage Contract:** If your boat isn't stored with Strong's Marine, ensure permission for us to showcase it at your marina. Your marina might have restrictions on showcasing boats.

*If you are considering selling or trading your boat, contact Strong's Marine to discuss how to get top dollar for your boat and receive guidance from our professionals.*
